Fireplace is a great focal point that will keep you warm on those chilly Michigan nights.

High vaulted ceilings and sky lights make the main living area bright and airy. Open floor plan allows you to flow through the kitchen, dining room and living room and out to the semi-private patio.

Like new kitchen features nearly new appliances, snack bar, refrigerator, dishwasher and built in microwave.

Upper level is home to the spacious master suite.

Lofted from the first floor is the main sleeping area. This allows sunlight to come streaming through the skylights to brighten up your morning. Plenty of room is available for a sitting/dressing area. The full bath offers double sinks, large mirrors and an abundance of vanity space.

Main floor offers a large bedroom with plentiful sunlight and a full bath.

Lush grounds blossom in the surrounding area. From the privacy of your own patio you can look out across the vast and rolling lawn and find beautiful views of the Saugatuck harbor. The perfect place to watch all the holiday fireworks. Large pond with fountain, a variety of trees and numerous flowering plants give you a relaxing and inviting atmosphere you'll want to share with others.

A one time 'buy in' to the association provides you with a swimming pool, playground and the irreplaceable ambiance of recreational fun.
