The main floor boasts a large open living and dining room with a lovely fireplace. Gather around a warm fire as you socialize with family and friends during those chilly evenings. The soaring ceiling adds a spacious and airy feel to the room.

A cute and cozy kitchen is tucked right next to the dining room with a bay window that overlooks the enchanting backyard.

The living room has an entrance leading to a sprawling deck which spreads out across the entire front of the house.

A ONE OF A KIND FLOOR LAYOUT WITH TWO SEPARATE WINGS!

Each wing offers a bedroom and a private bath. A perfect arrangement for accommodating your family or special guests.

Both wings have a door that leads out to a deck overlooking the woods. A most serene setting to relax as you drink your morning coffee.

If you enjoy the outdoors, you will love the screened porch and additional deck overlooking a flowing creek. A great place to have a BBQ and entertain guests. Set up a card game in the screened porch without the annoyance of bugs.

Don't forget there is a complete walkout first floor that is loaded with potential. Consisting of a nice open area that could be a 3rd bedroom or another gathering area, the possibilities are endless. With a little TLC, the home could be transformed into a little jewel.

A one car garage and storage shed are more amenities you will appreciate.

Douglas beach is just a short walk away. Spend a day laying on the beach and come back to your own cute getaway that everyone will love!
